

## Specialist Lighting Design

**SERVICES:** PLANNING APPLICATION SUPPORT  
(TO RIBA STAGE C) • EIA / IIP • CGI  
DAYLIGHT / SUNLIGHT DESIGN • VISUALISATION  
URBAN LIGHTING – DESIGN & MASTERPLANNING

Hoare Lea Lighting is an independent Lighting Design Consultancy. Its Principal, Dominic Meyrick, M.Sc., has shown a long-term commitment to CPD and HLL was the first consultancy to become a CPD Network Provider for the RIBA.

Under the umbrella title **LIGHT AS AN ARCHITECTURAL TOOL**, there are 5 individual topics covering cutting-edge lighting design issues, each of which takes one hour. Dominic is passionate about his subject and his lively, effective delivery makes learning fun.

## LIGHT AS AN ARCHITECTURAL TOOL

- 01 THE BUILDING BLOCKS OF LIGHT
- 02 LIGHTING FOR THE ELECTRONIC AGE
- 03 LIGHTING FOR RETAIL THERAPY
- 04 AFTER DARK – LIGHT AND THE NIGHTSCAPE
- 05 LIGHT AND THE FEEL-WELL FACTOR

Dominic will discuss how lighting can and should reach new frontiers given the available IT technology and web access, and explore the possibilities of:

**Lighting** – the tip of the electronic iceberg?

Lighting as a finish, not a service

**Future interaction** – electronic hardware / human software

**LEDs** – the bridge between environmental perception and the electronic age

Actually, the sky's not the limit!
